

**Coronavirus: COVID-19**  
**Current Update – August 12, 2022**

**Public Health Ontario's Weekly COVID-19 Summary**

Public Health Ontario (PHO) has been publishing weekly COVID-19 summaries instead of daily summaries.

Their report begins by stating that the numbers it is reporting do not represent how much COVID-19 is in Ontario. PHO warns us to interpret these numbers with caution because they are not entirely accurate. Cases, contacts, and outbreaks are only being managed in high-risk populations and settings. There is also a delay in reporting, especially with severe outcomes.

This is the second week in a row where the number of cases are going down! The number of reported cases in Ontario decreased to 10,372 this week, compared to 11,140 last week. However, increases were noted in 20 of 34 public health units. Case rates decreased in 4 out of Ontario's 34 public health units, ranging from 7% in Eastern Ontario to 17% in Toronto compared to last week.

Hospital admissions decreased to 375 this week, from 452 last week. This is the third week of decreased hospital admissions since the beginning of wave 7. There were 85 deaths reported this week, up from 69 the week before. In future reports, the reported number of severe outcomes may increase as there is often a lag in reporting time and reporting time.

Since last week, the total number of outbreaks in high-risk settings decreased from 216 to 193. Most outbreaks were reported in retirement homes (19% increase). Fewer outbreaks were reported this week compared to last week in group homes/supportive housing (7% decrease), Long-Term Care homes (16% decrease), and hospitals (35% decrease). Correctional facilities, and shelters reported a similar number of outbreaks this week compared to last week.

The number of outbreaks and outbreak-associated cases in high-risk settings continue to decrease as well. The total number of outbreaks in high-risk settings was 168 this week, down from 219 last week. Fewer outbreaks were reported this week compared to last week in shelters (62% decrease), retirement homes (38% decrease), Long-Term Care homes (31% decrease), and group homes/supportive housing (18% decrease). More outbreaks were reported in hospitals (21% increase). Correctional facilities reported a similar number of outbreaks this week compared to last week.

There were 2,334 outbreak-associated cases reported this week compared to 2,663 last week. Cases declined the most in hospitals (23% decrease), shelters (22% decrease) and Long-Term Care homes (18% decrease).

### **Upcoming Pop-Up Vaccine Clinics**

There are multiple pop-up vaccine clinics throughout Toronto. Check out our website's newest page to see all the posters of upcoming City of Toronto mobile clinics, including those in schools!

All of these clinics will provide first, second, third, fourth, and children's COVID-19 doses to eligible residents aged five and up on a walk-in basis. Even though proof of vaccination is not required to access spaces anymore, COVID-19 vaccines have been scientifically proven to lower the risk of illness, hospitalization, and death. Not only that, getting vaccinated helps you to protect yourself, your loved ones, and the community. Data shows that people with three doses have the lowest rates of hospitalization, Intensive Care Unit (ICU) and death over any other level of vaccination.

No appointment or health card required! Clinics may ask you for another form of ID. It can be a government-issued ID (including non-Canadian documents and expired documents), a piece of mail with your name on it, a pay stub, or a student card.\*

### **This Weekend's Pop-Up Vaccine Clinics**

- National Bank Open, Where: Sobeys Stadium, 1 Shoreham Dr.  
When: Friday, August 12, 11 a.m. to 8 p.m.  
Saturday, August 13, 11 a.m. to 7 p.m.  
Sunday, August 14, 11 a.m. to 4 p.m.
- Wheels on the Danforth, 3400 Danforth Ave.  
When: Saturday, August 13 from 12 p.m. to 7 p.m.

Click [here](#) for more information about pop-up clinics.

## **In Toronto? Here are two transportation options to go to your vaccine appointment:**

1. The Ontario Community Support Association's Accessible Drive-to-Vaccines program provides door-to-door rides to vaccination sites for people with disabilities, including seniors with mobility issues. You must have a vaccination appointment booked. You need to request a ride at least 48 hours before the appointment. To book, call 211 or click [here](#) to request an appointment online.
2. Wheel-Trans is committed to providing vaccine rides to the elderly and people with disabilities in Toronto. Wheel-Trans is offering individual rides to City-run mass vaccination sites, pharmacies, doctor's offices, and clinics that are giving out vaccines. Customers may be joined by one Support Person on their Wheel-Trans ride.

You may be eligible for Wheel-Trans service if your disability prevents you from using the TTC's conventional transit for all or part of their trip.

If you are not yet a Wheel-Trans customer, and you think you may qualify for Wheel-Trans service, you are invited to apply by calling Wheel-Trans Customer Service at 416-393-4111, Monday to Friday from 8 a.m. to 4 p.m.

Existing Wheel-Trans customers can book their rides to and from their vaccine appointments by calling Wheel-Trans Reservations at 416-393-4222, seven days a week from 7 a.m. to 11 p.m. or through the Wheel-Trans Self-Booking Website. Access the website by clicking here: <https://mywheel-trans.ttc.ca/SelfBooking2020/Login?ReturnUrl=%2fSelfBooking2020>.

## **Upcoming Events:**

### **North Yorkers**

#### **The Communication Enrichment Class (ongoing)**

The class is running virtually on Tuesdays and Thursdays at 1 p.m. You can find the online blog at <https://nydpcec.wordpress.com/> where class activities will be posted before each class. If you or someone you know has a communication disability and may be interested in participating in the class, please contact Jessica, our Manager of Client Services via email at [jessica.nydp@gmail.com](mailto:jessica.nydp@gmail.com).

### **March of Dimes**

#### **One to One Peer Support Program**

The One to One Peer Support program is still running. No one understands quite like somebody who has lived the same experience. Our Peer Support program pairs caregivers with peers who are also experienced in caregiving and can offer practical advice and support

by phone or a video chat. Contact Angie Clark by email at [aclark@marchofdimes.ca](mailto:aclark@marchofdimes.ca) or call 1-905-301-8114 for more information or to get connected.

—

If you or someone you know uses Augmentative and Alternative Communication (AAC), and requires resources related to COVID-19, please contact Jessica ([jessica.nydp@gmail.com](mailto:jessica.nydp@gmail.com)) and she can assist you in accessing and/or creating various communication tools.

If you think you may be experiencing symptoms of COVID-19, take the self-assessment at [www.ontario.ca/coronavirus](http://www.ontario.ca/coronavirus). Follow all directions from your medical provider or your local health unit at the following phone numbers:

Telehealth Ontario: 1-866-797-0000

Toronto Public Health: 416-338-7600

Peel Public Health: 905-799-7700

Durham Region Health Department: 905-668-7711

York Region Public Health: 1-877-464-9675

Please refer to previous updates as lots of important information has been provided that may still be relevant. If you have any questions or require more information on how you can protect yourself and those around you from the COVID-19 virus, please contact our Senior Manager of Client Services/Lead AAC Facilitator Jessica at 416-222-4448 or [jessica.nydp@gmail.com](mailto:jessica.nydp@gmail.com).
